

Assembling and Installation

Step 1: Open the box and prepare all the parts you need.

Step 4: Connect the pole mount bracket with the support tube.

Step 2: Unscrewing the screw of the light fixture/box for installing bracket.

Step 5: Insert the fuse into the light fixture/box. Unfold the knob of fuse (see below) and take out the insulating film of the fuse socket. Make sure the fuse is working, then tighten.

Step 3: Screw and hold one end of the mounting support tube to the light fixture/box.

Step 6: Mount the light fixture/box on the pole.
